

CREEPING JENNY

COLORWORK CHART

NOTES:

The slip-stitch colorwork pattern is worked in stockinette stitch with only one color per round, using each color for 2 rounds before switching to the other color.

The color to be used is indicated to the right of the round number on the chart. Chart stitches shown in the color being used are to be knitted, and stitches shown in the other color are to be slipped purlwise with working yarn in back.

Even numbered rounds are identical to the preceding odd round and are omitted from the chart.
